

Graphic Design Internship

This is a great opportunity to develop brand imagery from the ground up. You will be able to create actual graphics and layouts that will be used in many aspects of our day-to-day business, incredibly valuable work experience, all before you even enter the workforce!

Job Opportunities:

- Hands-on experience, designing graphics that will be used on ACTUAL, REAL LIFE products, on our website, and in our books, catalogs, and brochures
- Video design, integration, and campaign development
- Social media album postings, theme designs, and branding integration with images. Work closely with the Marketing Intern to develop strong, graphical representations of our brand!
- Develop infographics
- We are strong believers in graphic design, and how it helps people comprehend things that they need to know to make a difference in their lives. You will be working on helping convey information visually, so there is definitely an educational aspect to it!

Who We Are.

Way Solutions is a national boutique HR consulting firm located in Nashville, TN. We believe that work can be different. We offer a behind the scenes look at how companies hire people and then show clients how to incorporate that knowledge into their own job search. We do that through tools, resources, self guided learning, webinars, and even workshops or coaching sessions.
